

AI CONCLAVE 2026

Proposed programme details - 15 and 16 September 2026

AI Conclave 2026 is planned as a two-day programme covering Artificial Intelligence in Education, Agriculture and Healthcare. The first day will include expert panel discussions and industry-led workshops. The second day will be devoted to a student hackathon.

Venue	Amal Jyothi College of Engineering (Autonomous), Koovappally, Kanjirappally
Day 1	Panel discussions in the morning and workshops in the afternoon
Day 2	Student hackathon, project evaluation and closing ceremony

Day 1 - Panel Discussions

Date: 15 September 2026

TIME	PROGRAMME
9:00 AM	Registration
9:30 AM	Inauguration by Shri Dean Kuriakose
10:00 AM	Panel discussions begin
12:30 PM	Lunch break

Education / Academic Panel

The discussion will focus on the use of AI in teaching, learning, accessibility, academic administration, research and digital transformation in education.

Dr. M. V. Rajesh	Director, IHRD
Dr. Shailesh S.	Principal AI Architect, Laennec AI India Pvt. Ltd.
Dr. Ajith Kumar R.	Director, Centre for Digital Innovation and Product Development
Dr. Sunil T. T.	Director, ICFOSS

Other Panel Sessions

Agriculture Panel

The session will discuss precision farming, crop monitoring, agricultural planning, automation, sustainability and the practical use of AI in rural development.

Mr. Alexy Binu	CEO, AetherSphere
Dr. Berin Pathrose	Director of Planning, Kerala Agricultural University
Dr. Leena Mary	Professor, IIIT Kottayam; Former Principal, Government Engineering College, Kozhikode

Healthcare Panel

The discussion will cover AI-supported diagnosis, patient care, healthcare accessibility, clinical decision-making and medical innovation.

Mr. Viviek V. George	CEO, Trivia Innovations
Dr. Thomas Paul	Chief Orthodontist and Cosmetic Dental Surgeon
Mr. Robin Tomy	Technology Innovator and Social Innovation Leader, TCS and K-DISC

Day 1 - Industry Workshops

The afternoon session will include workshops conducted with the participation of industry organisations and technical groups. The workshops will also be open to students from external institutions.

TIME	PROGRAMME
1:30 PM	Workshop registration
2:00 PM	Workshops begin
4:40 PM	Workshops conclude

Proposed organisations and workshop groups

- UST
- Tata Consultancy Services (TCS)
- Cloud Innovation
- Nexa Lab, AJCE - Robotics Workshop
- Makers Village
- ICFOSS - subject to confirmation

Workshop registration will be separate from panel discussion registration. The workshops will be conducted with a minimal registration fee. The final topics, capacity and eligibility for each workshop will depend on the organisation conducting the session.

Day 2 - Student Hackathon

Date: 16 September 2026

The second day will be an open hackathon for school and college students. Students from external institutions will be allowed to participate.

TIME	PROGRAMME
8:30 AM	Hackathon registration and team verification
9:30 AM	Hackathon begins
9:30 AM-2:30 PM	Five-hour hackathon session
2:30 PM-4:30 PM	Project presentation and evaluation
5:00 PM	Closing ceremony and announcement of results

Participant categories

1. School students
2. College students

School and college teams will be considered separately during evaluation. Each team will have a minimum of two and a maximum of four students.

Hackathon tracks

1. **Education** - solutions related to teaching, learning, assessment, accessibility, student support or academic administration.
2. **Agriculture** - solutions related to farming, crop management, sustainability, automation, supply chains or farmer support.
3. **Healthcare** - solutions related to patient care, diagnosis, public health, accessibility, hospital operations or medical awareness.

Type of solutions accepted

Teams may present either technical or non-technical solutions. Technical entries may include applications, AI models, hardware, robotics or working prototypes. Non-technical entries may include process improvements, service models, strategies, policy ideas or other practical proposals.

No preliminary shortlisting: There will be no idea-selection or shortlisting round before the event. Eligible teams may register and participate directly, subject to the available capacity.

Project Preparation

Students may develop or prepare their projects from home before attending the hackathon. They may present the completed project or continue improving it during the five-hour session.

During the presentation, teams should explain:

- the problem they have selected;
- the solution developed by the team;
- the work completed before the event;
- the work completed or improved during the event; and
- the practical value of the proposed solution.

Evaluation

External evaluators will be invited for the project assessment. Evaluation will take place from 2:30 PM to 4:30 PM. Each team will present or demonstrate its work and answer questions from the evaluators.

Technical and non-technical entries will be assessed according to the nature of the solution. The evaluation may consider relevance of the problem, originality, quality of the solution, feasibility, impact and presentation.

Important Points

- The hackathon is open to both internal and external participants.
- School and college students will participate under separate categories.
- Each team must select one track: Education, Agriculture or Healthcare.
- Both technical and non-technical solutions are permitted.
- Projects may be prepared at home and presented at the event.
- No preliminary idea-selection or shortlisting is required.
- External evaluators will assess the final presentations.

Details to be Finalised

- | | |
|---|--|
| • Confirmation of panellists and moderators | • Evaluation panel and presentation duration |
| • Final workshop topics and organisations | • Prize categories and certificates |
| • Registration deadlines and participant limits | • Room allocation and technical facilities |

This note is prepared for faculty discussion and programme planning. Names of speakers and participating organisations may be updated after confirmation.
